

## Presbyterians In Midst Of Campaign For Benevolences

Churches of the Memphis presbytery are now in the midst of their every member canvass in connection with the Presbyterian progressive program movement, which has as its object raising of \$25,000 from the 77 congregations of the Memphis presbytery for benevolences.

About 30 churches have already completed their canvasses, with splendid success in every instance. Quite a number of churches will conduct their canvass Sunday, April 25 is the date for the campaign to close.

Second Presbyterian church, of which Rev. A. B. Curry is pastor, has the largest quota in the Memphis presbytery. Its goal is \$18,000. A. B. Curry is congregational manager for Second church and the canvass will be made April 25. Leaders expect to exceed the goal and the church last year gave over \$20,000 for benevolences. Idlewild Presbyterian church has the second largest quota with \$8,000. Jackson, Tenn., has the largest quota of any church outside of Memphis, with \$7,000.

## Auto Without Tag Source Of Trouble

An automobile is often a source of trouble to its owner. More trouble is in sight for those who have failed to get their city license tags. Commissioner C. R. Shannon has asked the police department to arrest any owner who does not display the tag. There are plenty of them at the license collector's office.

## CAPLEVILLE BOY WINS EGG PRIZE

Woodson Howe, student of the Capleville school, is the winner of the \$5 prize offered by the Easter Egg company and Trust company to the boy or girl who secured the largest increase in egg production in their country flock during March. Woodson's reports showed an increase of 500 per cent.

## BOY SHOWS DESIRE TO SHAVE AND WRITE

A white youth given a job of window washing by P. R. Albright, 854 Eastway place, deserted his job after only a few moments of work and carried with him a gold safety razor and fountain pen, according to complaint to police. Albright asks the arrest of the youth.

## CHICAGO PAYS LAST TRIBUTE TO SULLIVAN

CHICAGO, April 17.—Machinery of the city, county, state and federal offices paused in Chicago this morning during the funeral of Roger C. Sullivan, Democratic leader, who died at his home Wednesday.

## RECEIVES \$100 CHECK.

A check for \$100 and expressions of appreciation for the efforts of firemen at the York Lumber company fire last week were received Saturday by Fire Chief Fitzmorris from Robert York, president of the firm. The money will go into the fund of the Firemen's Relief association.

## MRS. COLLIER'S BODY BURIED IN VICKSBURG

Funeral services were held in Vicksburg, Miss., Saturday for Mrs. Sarah Newman Collier, aged 79, who died in Memphis Friday, after an illness of less than a week. The body was sent to Vicksburg Friday night.

## ROADS MUDDY: VISITS PLANTATIONS VIA AIR

Earl Carr has put an airplane to practical use by visiting two of his father's plantations by air. The roads in Arkansas and Mississippi were in such bad shape that he decided it would be impossible to make the trip by auto. Leaving the flying mark at 3 a.m., he completed his business at both plantations, stopped at Clarksville for an hour's visit and was back in Memphis in time for early supper. He made the trip in a Curtiss J-3, piloted by Joe Marriot, chief aviator for the Memphis Aerial company.

## MAN HURT IN FALL IMPROVES AT HOSPITAL

A. F. Stundt, 281 Shelby street, an employee of the Allen Drug company, 535 South Second street, who was hurt Friday when he fell one story through an open window, was better Saturday, according to nurses at St. Joseph's hospital. He was bruised, but it is thought there are no serious injuries.

## MEDLEY APARTMENTS BOUGHT BY PLANTER

Purchase as an investment of the Medley apartments at Peabody avenue and East street by Sam Heyman, plant, of Baltimore, Md., was announced late Friday by H. M. Hall, of H. M. Hall & Co. real estate. The price was said to be \$60,000. Mr. Heyman will take possession in the fall. It is understood.

## WOOLEN COMPANY WILL LOCATE HERE

Location of the building at Main street and Monroe avenue, now occupied by the Western Union Telegraph company, to the United States Woolen company of Baltimore for a period of ten years, beginning one year from September, was closed Friday by L. A. Montedison, of H. L. Ogan company. Rentals, it is said, total \$300.00.

## SENATOBIA SCHOOL TO HOLD EXERCISES

SENATOBIA, Miss., April 17. (Sp.)—The commencement exercises of the Tate County Agricultural college will begin Sunday, April 18. The commencement program will be presided by Dr. T. M. Brownlee. The commencement exercises and presentation of diplomas will be held next Friday. Thursday night will be class night, and the seniors will give a play at the auditorium of the college on Wednesday night. This is the largest graduating class in the history of the school.

## The Stephens Salient Six

Contains the Qualities That Are  
Worth While in a Motor Car

### PERFORMANCE

"By their works ye shall know them." Always a true test of merit lies in performance. The record-breaking athlete wins championships when he proves his worth in open competition after long arduous training. A motor car must prove its merit in the open country, over sand, rocks, mud and mountains, where every fiber of its construction, every ounce of its power, strength and speed is given the supreme test. Through all these tests the Stephens has been weighed in the balance and found NOT wanting. Twice it has returned victorious in the Yosemite Run. For weeks it was submitted to a grueling battle with the burning sands of Death Valley. On the Asot Speedway the Stephens rolled seventy-two miles per hour for hour after hour. In short, the zenith of accomplishment is found in the Stephens.

You are invited to select some difficult objective, submit your problem, then watch the Stephens take it by storm.

## Columbia Six

"Pep"

The Spirit of Youth  
In a Motor Car

For the Younger  
Generation

Anyone who is under 30  
or feels that way will be  
particularly interested in  
the Columbia Six Roadster.

"Swanky," snappy lines  
that makes everyone turn  
and admire it—spare tire  
set flush with the rear  
deck—a novel feature—  
curtains that open and  
close with the doors, giving  
it all of the comfort of a  
closed car in bad weather—  
plenty of space under  
the rear deck for touring  
traps—a car that thoroughly  
satisfies the year 'round.

Truly, the Columbia Six seems  
alive with the spirit of eternal  
youth.

If you think this statement is a  
wild flight of fancy of some poeti-  
cally inclined copy-writer, ride in a  
Columbia—just once.

Step on the accelerator, and you  
will experience a joyous thrill of  
life and action.

Then put it thru some heart-  
breaking test—thru sand, mud,  
or up a mountain. And you will  
find in it strength, power and the  
never-say-die spirit of youth—a  
spirit that will make it your  
friend for life.

## Many a Lame Man Who Doesn't Limp Is Crippled Under His Hat

Tires are tires to some, until blowout time comes. Then it's right painful sometimes to figure the mileage per dollar.

We sell Goodyear's—only Goodyear—for pleasure cars and trucks. Our service and Goodyear quality make cost per mile very reasonable—and there's more comfort in every mile.

## Cole Aero-EIGHT

BALANCED TO ZERO

Why does the Aero-EIGHT pick-up so swiftly and  
have so great a fund of reserve power?

An aviator can tell you the moment he takes the  
wheel and feels the car respond to the touch of the  
accelerator.

It's the minute balance of every unit that enables  
the mechanism to respond without effort or re-  
straint when under way.

Aerotype engineering has increased the limits of  
motor car possibility, and Cole engineers have been  
the first to apply these principles to the automobile.

Aeroplane balance is one of the characteristics  
which the name of the Aero-EIGHT implies. It is  
balanced to zero, so that every unit is able to func-  
tion 100 per cent.

## Do You Change Gears in Traffic

**P**OLICE records show that  
over 90 percent of all auto  
accidents could be easily  
avoided. Watching the car in-  
stead of the road seems to be the  
motorist's biggest trouble.

Stand on any congested corner.  
Notice how the driver of prac-  
tically every car is compelled  
to change gears when the traffic  
slows down even to 3, 4 or 5 miles  
an hour.

Packard drivers keep both  
hands on the wheel—the car  
easily throttles down to two miles  
an hour on high—and then can  
pick up to thirty in twelve seconds.

**W**E say—no other car can  
give you such a wide range  
of speeds on high as quickly

and as smoothly as a Twin Six.

Further, take Packard turn-  
ing radius—the 130" wheel base

**THE Fuelizer is THE NEW**  
engineering development  
which makes any gas a perfect  
fuel—

Eliminates carbon.  
Stops fouling of spark plugs.  
Prevents oil dilution on the cyl-  
inder walls and in the crank case.  
Makes starting easy in any  
weather.

The Fuelizer is only found on  
Twin Six cars.  
Come in and see how it works.

of a Twin insures maximum rid-  
ing comfort—yet the turning space  
required is no greater than that

of ordinary cars which have a  
wheel base 10 to 20 inches shorter.

**T**HERE is nothing radically  
new about Packard perfor-  
mance. Even those features which  
make it unchallenged in ease of  
handling and performance, are  
simply gradual Packard engi-  
neering developments, brought  
about by 21 years continuous  
building of passenger cars.

To test performance—drive  
any car, both in traffic and in  
the open—then try a Twin Six.

After proving to yourself that  
Packard out-performs any other  
car—inquire for the facts that  
show a Twin Six is just as eco-  
nomical to run as many cars cost-  
ing one-half to two-thirds as much.

Ask the man who owns one
